Work Experience

Jan '24 – Mar '26	HR Analyst, Amazon	Bangalore, India
- Acted as a strategic data partner by analyzing HR metrics, conducting thematic audits, and developing automated reporting solutions to drive operational efficiency. Collaborated cross-functionally with Business Intelligence and forecasting teams to optimize workforce allocation, mitigate compliance risks, and enhance data visibility for leadership - Partnered with the forecasting team to strategically allocate advisors to fixed case types, optimizing back-office volume and reducing customer turnaround time (TAT) by 33% (from 72 to 48 hours) - Collaborated with the Business Intelligence team to migrate manual trackers into real-time, automated dashboards via QuickSuite and Smartsheet integrations, significantly enhancing leadership decision-making - Integrated an AI-powered chat agent to analyze audit data and autonomously generate actionable recommendations, saving 0.22 FTE hours weekly in manager feedback delivery - Developed AI-based escalation alerting channel using bots to streamline how managers generate and deliver data-driven audit feedback to advisors		
Dec '21 – Jan '24	HR Advisor III, Amazon	Bangalore, India
- Served as a senior escalation point and process improvement lead, driving standardization and automation across HR operations. Partnered with leadership to overhaul ranking systems, resolve complex legal escalations, and engineer AI-driven solutions to reduce manual administrative burden for managers - Architected internal AI applications to automate the documentation of abusive contacts for the escalations team, decreasing processing time by 75% (from 2 hours to 30 minutes) - Created a standardized "Handling Legal Escalations SOP" for the quality team, effectively reducing training time by 83% (from 2 hours to 20 minutes) while improving compliance - Co-authored a strategic proposal analyzing discrepancies in TQ and BQ advisor filtering, successfully prompting leadership to restructure the existing advisor ranking process - Partnered strategically with the Learning and Development team to audit and transition core operational processes into the Essential Skills framework, ensuring standardized training delivery across the department		
Nov '20 – Nov '21	HR Advisor II, Amazon	Bangalore, India
- Provided comprehensive HR support by resolving operational roadblocks, mentoring junior associates, and facilitating full-cycle recruitment for advisor positions. Acted as a primary point of contact for cross-functional stakeholders, ensuring seamless communication, stakeholder relationship management, and adherence to foundational HR processes - Spearheaded the inception of "Team 360" in August 2021, serving as the inaugural point of contact for operations and quality management while mentoring and training a cohort of 15+ associates - Cultivated strong relationships with HRBPs, HR Partners, and Operations Leaders across multiple corporate sites to proactively address and resolve customer-facing issues - Served as the primary point of contact for system access inquiries within the Quality Team, conducting root-cause analysis to resolve technical restraints and minimize operational downtime		
Sep '20 – Oct '20	Business Development Associate, Byju's	Kochi, India
- Assessing performance output via Achieve, CRM via LeadSquared, managed inventories through Orderhive & Arrieyo for Omni-channel Customer Care - Handling payment gateway management & requirements of customer KYC documents for loans by Avanse & IIFL		
June '19 – Aug '19	Financial Services Intern, Geojit Financial Services	Kochi, India
- Facilitated equity analysis to assess quarterly results, balance sheets & PE ratio of 10-15 companies to put forth buy/sell recommendations - Performed comprehensive market research to identify potential investment opportunities & used statistical tools i.e., RSI & SMA's to examine stocks - Collated & verified KYC information of 20+ clients to create DEMAT accounts		

Education

2026 – 2027	University of Washington <i>Master of Science, Business Analytics (in progress)</i>
2018 – 2020	Amity University <i>MBA, Grade: 8.2/10 CGPA</i>
2015 – 2018	SCMS School of Technology & Management <i>Bachelor of Commerce</i>

Academic Projects

2020 Effectiveness of Visual Merchandising, Amity University

- Directed a mixed-methods research study for a major retail client, designing and deploying surveys to **100+** customers to evaluate the effectiveness of in-store visual merchandising
- Executed Factor Analysis in SPSS to model consumer behavior metrics, synthesizing raw data into actionable layout, pricing, and sensory recommendations for supermarket management
- Drove a **17% increase** in clearance product sales and improved quarterly profitability by successfully piloting a data-backed trial layout, which included revamped price displays and atmospheric enhancements

2019 Stock Price Analysis of SBI & HDFC Bank, Amity University

- Engineered a multiple regression model using R to isolate and quantify the impact of microeconomic and macroeconomic variables on closing share prices
- Aggregated and cleansed a 5-year quarterly dataset, evaluating macroeconomic indicators (Bank NIFTY, Inflation, GDP) against micro-financial metrics (NPA, PAT, Deposits)
- Analyzed statistical outputs including R, R-squared, standard deviation, and Beta values to formulate data-driven findings on the fundamental drivers of stock valuations beyond baseline investor sentiment

Extra-Curricular Activities

2019 Core Team Member of TEDxAGBS, Amity Global Business School

- Administered event with footfall of **150+** by delegating work effectively amongst **6** members
- Consolidated costs by **50%** & generated alternate solutions i.e., search of venue at lower price
- Led finance team of **6** members & handled payments for event including logistics, food & venue

2016 – '17 NSS Volunteer, SCMS School of Engineering and Technology

- Led team of 55+ volunteers during undergrad
- Done over **60+** hours of volunteering at government hospitals, schools and senior care homes

2015 Volunteer for HVVP, Nepal & The Green Nest

- Spearheaded a sustainable disaster relief initiative for the 2015 Nepal earthquake, directing social media campaigns (Facebook/WhatsApp) that mobilized community support and secured endorsement from local government officials
- Recruited and led a **15-person** volunteer team over 3 days to collect, sort, and package **3.5 tons** of crucial supplies, including food, medicine, and clothing
- Coordinated end-to-end international logistics, negotiating free rail transport via DTDC and air transport via Air India to successfully deliver **16.5 tons of total aid (including 12,000 water bottles)** to Kathmandu
